

**ACKNOWLEDGMENT OF CAREGIVER/PROSPECTIVE SUPPORTER
FOR INDIVIDUAL WITH DISABILITY**

I understand that Disability Rights Texas (DRTx) is providing me only general information on guardianship and supported decision making. I understand that by giving me general information on guardianship and supported decision making, DRTx is not establishing an attorney/client relationship with me or providing me legal advice specific to any personal situation that I may have in regard to supported decision making.

I understand that DRTx is not providing me specific legal advice related to my adult son/daughter.

I understand that DRTx would only represent a person with a disability in a supported decision making agreement, and would not represent the parent or the supporter in supported decision making or guardianship.

I understand that if my adult son/daughter expresses a desire to enter into or establish a supported decision making agreement, s/he is free to request assistance from DRTx.

I understand that if DRTx agrees to represent my adult son/daughter, it will be my adult son/daughter who will be a client of DRTx, not me.

I understand that if my adult son/daughter seeks assistance from DRTx regarding supported decision making, DRTx will need to meet privately with my son/daughter and any communications that DRTx may have with my son/daughter will be and remain confidential and may not be disclosed to me.
